Knob

Right-hand Wind-up Spool

Knob

Pulley

Weight

CRUSTACEAN

Directions:

Pieces Included:

- 1 Sculpture
- 1 Weight
- 1 Set of Directions

To Start:

Turn each large wheel in the Direction toward which it points. (See attached diagram.)

To Mount On Wall:

1. Remove the sculpture and weight, from backboard. Do Not remove masking tape.
2. Hold the backboard in desired location against wall. Make sure bottom edge of backboard is level.
3. Place a sharp instrument through the mounting screw holes, marking their position on the wall. The proper holes are labeled.
4. Drill pilot holes. If the wall is plaster or sheetrock, use plastic anchors.
5. Mount the sculpture using round-headed, brass screws,  $1\frac{1}{2}$ " or longer.
6. Remove masking tape.

To Stop:

Stop the large wheels from turning.

To Suspend the Weight:

1. Pass the string from the left-hand wind-up spool, under the pulley on the weight and tie it to the string attached to the right-hand wind-up spool.

To Wind:

Turn both wind-up knobs in opposite directions. They will each turn in only one direction. Turn each knob so that the knot remains under the pulley on the weight.
