Directions:

To Mount on Wall

- DO NOT remove the tape holding the strings in place.
- Hold the mounting template in the desired location against a wall. Level the bottom edge.
- Place a sharp instrument through the screw holes, marking their positions on the wall.
- Drill pilot holes. If the wall is sheetrock or plaster use plastic anchors.
- Screw the sculpture to the wall.
- Remove the tape holding the strings in place. DO NOT remove the brown tape on the drive spring.

To Wind

- Turn the drive pulley wheel clockwise 20 turns

To Start

- If Marionette does not start immediately after winding, gently push the "reversing wheel" about 1/4 turn clockwise.
